Profile

I am a Swedish girl born in 1982. I am positive and love working with different kinds of designs and layouts. Art is wonderful and I love working with it. I use the computer for most of my works, "computers are there to help us!" as one of my art teachers once said. I've been using computers for a very long time and know them pretty well.

I also like other forms of art, such as sewing and crafting.

I am doing personal art commissions and designs so I am fairly adapted to having a time line to work after and deadlines for prints.

Skills and achievements

Traditional art

- Drawing, acrylics, water colours, oil colours, Ink

Digital

- Photoshop, Illustrator, In Design, Paint shop Pro, Painter
